Xerox Corporation,
1700 Market Street, Philadelphia, Pa., 29th Floor, on 4/6/71,
furnished to SA THOMAS E. CARRIG the following specimens which
were obtained from Xerox 660 copiers in the City of Philadelphia.
These specimens are identified on the top copy with the exception
of one which is identified by stapled memo. The serial number of
the machine is also noted thereon and the other written notations
were made by the individual obtaining the specimens. All of the
staples attaching the various enclosed specimens ~~containing staples~~
~~attaching the various enclosed specimens~~ were affixed to the
specimens at the time they were delivered. No examination is being
requested relative to these staples. U

It is to be noted that the specimens were made from
11" documents and were copied on 11" Xerox paper. U

It is requested the FBI Lab examine the enclosed
Xerox specimens to determine if they were reproduced by Xerox
660 being used by UNSUBS.

Re Survey being conducted of Xerox 660 copiers. U

Enclosed to the FBI Laboratory are 71 samples
obtained from 71 different Xerox 660 copiers located in
the Boston Division. UBureau and Philadelphia note that Boston has
completed surveys of all Xerox 660 copiers located in the
city of Cambridge, Mass., which includes Harvard, MIT, and
Radcliffe, and has also completed surveys at all logical
places which include Boston College, University of Mass.,
Boston University, and various educational and religious
organizations. UXerox, Boston, has advised it will continue to
obtain samples from Xerox 660 copiers and turn them over to
the Boston Office. UThe FBI Laboratory is requested to compare the
submitted samples with evidence in this case to identify the
Xerox 660 copier used to reproduce the stolen Bureau serials. U

DATE 7-9-84 BY SP5 RJG/PMBEnclosed herewith for the Bureau and recipient
offices are two copies each of the news release circulated
by Unsubs beginning, "On the night of March 8, 1971..."

Inasmuch as this enclosed news release was
circulated immediately following the burglary and contains
a possible profile of the aims, purposes, beliefs and
philosophy of the Unsubs, the Philadelphia Division is
currently analyzing this document in an effort to identify
the individuals or group responsible for its preparation
from its content. It is the feeling of the Philadelphia
Division that this document was prepared with much deliber-
ation prior to the burglary since its text is well thought
out and was read by the Unsubs to W. H. WINGELL, Jr., Reuters
News Service, Philadelphia, Pa., at 7:00 a.m., 3/9/71,
approximately five hours after the burglary was apparently
completed. Mailings of this document were subsequently
made in the p.m. on 3/9/71. U

Although it is recognized that the views expressed in the document may be the opposite of the views held by the Unsubs and was worded in the manner in which it is set forth as subterfuge, it is felt it should be accepted at face value for lead purposes. U

A preliminary analysis of the context disclosed the following: U

ATTITUDE TOWARDS CRIME

The following appear to represent what the Unsubs consider to be serious crimes: U

- 1) War profiteering (as contrasted to opposition to war in general) U
- 2) Monopolistic practices U
- 3) Institutional racism (as contrasted to racism of all kinds) U
- 4) Organized crime U
- 5) Mass distribution of legal drugs (as contrasted to the feelings of many groups that the use of drugs is acceptable) U

ATTITUDES TO WAR

Unsubs want all troops and weapons withdrawn this year (as contrasted to demands of many groups that troops be withdrawn immediately). U

CAUSES OF DESTRUCTION OF SOCIETY

The author listed the following in an apparent order of importance:

- 1) Evilness
- 2) Egotism

- 3) Senility of some leaders (
- 4) Undemocratic social, economic and political institutions. |

ATTITUDE TOWARDS VIOLENCE

- 1) The group acknowledged the burglary was carried out so as not to physically threaten anyone.
- 2) The group stated they intended no personal harassment.
- 3) The group mentioned loving and serving them (its people).

SOCIAL CONCEPTS

- 1) A society which does not threaten war.
- 2) A society which distributes human and material resources fairly (as contrasted to repartition demands made by some groups of an excessive nature).
- 3) A society which operates on a basis of justice not fear (as contrasted to a group which is opposed to a present system of justice in any form).
- 4) An open society

ACTIVITIES OF GROUP

- 1) The Unsubs indicated they have people "who daily depend on us," a possible indication that the Unsubs are engaged in social welfare type work requiring daily activity. U
- 2) The Unsubs recognized that their actions possibly jeopardized the people they served. Again possibly indicating social welfare activity. U

PH 52-7165

The above suggests a possible interpretations of the enclosure from a cursory examination. It is felt that an in depth examination of this document by the Bureau and individuals in designated offices could prove to be a benefit in further identifying the Unsubs; not only from what is said but from the style of writing, the use of key phrases, the choice of languages, etc. It is also quite possible that phrases of a similar style might have previously appeared in print and have come to the attention of the Bureau or recipient offices. Therefore, the following is requested: U

REQUEST OF DOMESTIC INTELLIGENCE DIVISION,
RESEARCH SECTION:

That the enclosure be furnished an in depth analysis by individuals coming into frequent contact with material from individuals, organizations and publications dealing with anti-war, anti-draft and anti-law enforcement utterances. U

REQUEST OF RECIPIENT OFFICES:

That the enclosure be thoroughly reviewed by individuals within your respective divisions who deal with individuals, groups and publications relating to the New Left and peace movements. U

The results of your analysis and copies of any articles or hand-out material located which contain phrases or a language style similar to the enclosure, should be promptly furnished the Philadelphia Division. U

On the night of March 8, 1971, the Citizens' Commission to Investigate the FBI removed files from an east coast office of the FBI. These files will now be studied to determine:

- the nature and extent of surveillance and intimidation carried on by this office of the FBI, particularly against groups and individuals working for a more just, humane and peaceful society;
- how much of the FBI's efforts are spent on relatively minor crimes by the poor and powerless against whom they can get a more glamorous conviction rate, instead of investigating truly serious crimes by those with money and influence which cause great damage to the lives of many people; crimes such as war profiteering, monopolistic practices, institutional racism, organized crime, and the mass distribution of lethal drugs;
- the extent of illegal practices by the FBI, such as eavesdropping, entrapment, and the use of provocateurs and informers.

As this study proceeds, the results obtained along with the FBI documents pertaining to them will be sent to people in public life who have demonstrated the integrity, courage and commitment to democratic values which are necessary to effectively challenge the repressive policies of the FBI.

As long as the United States government wages war against Indochina in defiance of the vast majority who want all troops and weapons withdrawn this year, and extends that war and suffering under the guise of reducing it, as long as great economic and political power remains concentrated in the hands of small cliques not subject to democratic scrutiny and control, then repression, intimidation, and entrapment are to be expected. We do not believe that this destruction of democratic society results simply from the evilness, egotism or senility of some leaders. Rather, this destruction is the result of certain undemocratic social, economic and political institutions.

We have carried out this action in a way which does not physically threaten anyone. We intend no personal harassment of the people who work in the office from which the files were taken. Indeed, we invite them and others to join with us in building a peaceful, just, and open society; one which does not wage nor threaten war, which distributes human and material resources fairly, and which operates on the basis of justice rather than fear.

We have taken this action because:

- we believe that a law and order which depends on intimidation and repression to secure obedience can have but one name, and that name is tyranny;
- we believe that democracy can survive only in an order of justice, of an open society and public trust;
- we believe that citizens have the right to scrutinize and control their own government and its agencies;
- and because we believe that the FBI has betrayed its democratic trust and we wish to present evidence for this claim to the open and public judgement of our fellow citizens.

In doing this, we know full well the legal jeopardy in which we place ourselves. We feel most keenly our responsibilities to those who daily depend upon us, and whom we put in jeopardy by our own jeopardy. But under present circumstances, this seems to us our best way of loving and serving them, and in fact, all the people of this land.

Re Philadelphia tel 4/2/71, to obtain toll records for telephone number 301-732-7387, listed to [redacted] Baltimore, Maryland; to identify subscribers, obtain background and submit FD-302's and/or inserts advising Bureau and Philadelphia of results and also to sutel.

Similar leads for additional numbers in Baltimore Division also have been received.

In view of the urgency of instant investigation, the considerable number of telephone subscribers involved and the resulting ~~and~~ time consumed to furnish background suitable for reporting purposes, the following procedures is suggested:

- 1.) Identify subscriber
- 2.) Set out leads by airtel when subscriber located in another Division.
- 3.) Check indices, credit and criminal.

- 4.) Furnish results to Philadelphia by airtel.
- 5.) Report information obtained from telephone records on FD-302 (1 copy), but retain this information, along with results of indices, credit and criminal in a sub-file, available to furnish to Philadelphia, suitable for reporting in the event the subscriber later appears pertinent to MEDBURG during the course of the investigation. U

Above procedures would save considerable agent and stenographic time at this crucial period and could prevent reporting of irrelevant information not pertinent to the solution of this case. U

Bureau and Philadelphia requested to consider merits of this suggestion. U

NOTE: The name USA, Oak Brook, Illinois, appeared on the bottom of one of the copies of one of the surfaced stolen documents. Chicago determined a was attending Northern Baptist Theological Seminary, Oak Brook, Illinois, and made several attempts to interview . On one occasion apparently intended to embarrass Bureau Agents as he telephonically arranged for an interview and then had approximately 25 to 30 students waiting for the Agents when they arrived. Efforts are continuing to locate under proper secure conditions for interview and background being requested set forth in LHM for possibility of bringing to Federal Grand Jury to testify. *U*

The following chronology of events are set forth concerning the burglary of the Media Resident Agency on 3/8/71: U

Initial details concerning this burglary were received at the Bureau during afternoon of 3/9/71 by teletype from Philadelphia Office. SAC, Philadelphia has afforded on-scene supervision of case utilizing special squad since inception. Criminal aspects of burglary being handled by special squad in Criminal Section. On 3/9/71 following notification of burglary Philadelphia Office was instructed to compile and furnish Bureau summary of items missing. *U. S. Dept. of Justice, Office of the Inspector General, March 10, 1971*

To determine items missing is a painstaking and time consuming operation since this has to be accomplished through review of charge out slips in Philadelphia Office files, reconstruction of notes and rough drafts from Agents' memories, identification and submission of copies from Bureau and auxiliary office files. On 3/11/71 Philadelphia Office submitted initial copies of serials known to be missing to the Bureau. Serials were immediately reviewed and analyzed by each division having supervisory responsibility over subject matter involved. By Friday, 3/12/71, these reviews were completed and memoranda submitted by Domestic Intelligence, General Investigative, Administrative and Special Investigative Divisions. Subsequent to that date additional missing serials have been received at the Bureau and these too have been reviewed and memoranda analyzing their contents have been submitted by the substantive division involved. U

Recognizing the impact material in these serials could have on FBI operations, a memorandum was prepared on Monday, 3/15/71, requesting approval for a representative of FBI Legal Counsel's Office to be

accompanied by a representative of the General Investigative Division to discuss the legal aspects with Department concerning a court order to prohibit public disclosure of the FBI documents taken. Approval for this action was obtained on 3/16/71. Because Assistant Director Dalbey appeared before the Senate Judiciary Subcommittee on both the morning and afternoon of 3/17/71, the conference with Deputy Assistant Attorney General Leon Ulman Office of Legal Counsel, was held on the morning of 3/18/71. Ulman indicated there was little precedent for an order prohibiting disclosure of this information, however, a possibility existed such an order might be obtained. He suggested this matter be discussed with the Civil Division or the division having jurisdiction over the case. The conversation with Mr. Ulman was confirmed in writing on 3/19/71 by letter to the Assistant Attorney General, Office of Legal Counsel, with copies to Assistant Attorneys General, Criminal and Civil Divisions. The Criminal Division was requested to advise as soon as possible as to the feasibility of initiating such action since the possibility existed there may be a public disclosure of stolen FBI material in the very near future. U

Prior to this conference with Ulman, we contacted [redacted] Department attorney who is handling the Berrigan case, on 3/16/71. [redacted] was furnished the details concerning the Media burglary and was advised that certain individuals associated with the East Coast Conspiracy to Save Lives (EASTCON) may be involved in this burglary. One such individual was [redacted] unindicted co-conspirator in the EASTCON case, who had publicly announced that he had received a news release concerning the burglary from the Citizens Commission to Investigate the FBI. [redacted] stated he did not want [redacted] interviewed by the FBI at this time. Our conversation with [redacted] was confirmed by memorandum dated 3/18/71 to the Assistant Attorney General, Internal Security Division, copy to Criminal Division. This letter indicated no active investigation would be conducted concerning the burglary of the Media Resident Agency relative to defendants or unindicted co-conspirators in the EASTCON case without first clearing this with the Department. U

b6
b7C

On 3/23/71 Mr. Ulman contacted a representative of the FBI Legal Counsel's Office and indicated that he was referring to the Civil Division the FBI request concerning the possibility of getting a restraining order prohibiting the disclosure of any information taken from documents during the Media theft. U

Rosen to Sullivan Memorandum
Re: MEDBURG

In reference to the above, it is pointed out the Philadelphia Office was not able to immediately construct a detailed list of all of the material which had been stolen. To do so necessitated a check with auxiliary offices, Bureau files and other references which might be available to the Philadelphia Office. As a matter of fact, of the 17 items delivered to Congressman Mitchell and Senator McGovern only six had previously been identified by the Philadelphia Office as having been stolen. Philadelphia has been requested to explain why these missing serials were not detected earlier. U

The Attorney General by memorandum on 3/23/71 indicated he would appreciate being advised with all possible speed with respect to the nature and content of the documents which have been identified to date as missing. In this connection Mr. Mardian, in conference with Mr. Sullivan, asked to be furnished with such data. Following Mr. Mardian's request, Xerox copies of all serials sent to Congressman Mitchell and Xerox copies of 103 serials stolen from Media Resident Agency were hand delivered to him last night. U

ACTION: Attached for approval is a letter to the Attorney General with copies to Deputy Attorney General, Assistant Attorneys General Criminal, Civil, Internal Security Divisions and the Office of Legal Counsel. Letter specifically refers to previous contacts with Departmental officials wherein details concerning Media burglary were furnished. Reference also is made to fact that Xerox copies of certain serials were hand delivered to Mardian on 3/23/71. Remaining copies of stolen serials being forwarded to the Attorney General. U

Group failure to advise A.G. is inexcusable. You shall furnish findings in the report.

As additional material is identified as stolen and copies received at the Bureau, the substantive desk handling the violation involved will prepare a memorandum analyzing the nature of the data. The responsible division will likewise prepare a memorandum to the Attorney General furnishing Xerox copies of the stolen material. U

R JLM WEL

Sullivan & Rosen are to be censured for their failure to notify A.G. immediately following the robbery & attach reports to the letter.

Re Philadelphia teletype to March 26, 1971, to contact locksmiths and locksmiths associations to determine if any had received inquiries in recent weeks for information on locks and locksmiths or for the purchase of lock picking tools in an effort to develop logical suspects. U

A canvass of these sources in the Baltimore Division did not provide any logical suspects. U

Re WFO airtel, 3/30/71, requesting Baltimore to develop background regarding persons and activities in School Sisters of Notre Dame in an effort to develop identity of person, who mailed [redacted] a Medburg news release; Bureau teletype, 3/31/71, identifying prime Medburg suspects and their associates who should also be considered as suspects.

[redacted] as an associate, is listed as a suspect in re Bureau teletype which also reflects that on 3/11/71, [redacted] visited [redacted] in Baltimore on 3/11/71; further, on 3/15/71, a copy of the Medburg news release was mailed to [redacted] from Baltimore with a return address of the School Sisters of Notre Dame, 1035 Aisquith Street, Baltimore, Maryland.

In addition to the press release mailed to [redacted] a letter apparently from [redacted] was included which indicated that she had visited [redacted]. Although the letter was mailed from Baltimore, it appears that [redacted] who cannot be identified, is not connected with the convent at 1035 Aisquith Street, Baltimore, nor is [redacted] associated with this convent.

Investigation by Baltimore disclosed that a religious order known as the Sisters of Notre Dame de Namur has a convent at 1035 Aisquith Street, Baltimore, and teach elementary school in Baltimore. Investigation further disclosed that the School Sisters of Notre Dame, reside next door at 1033 Aisquith Street and that nuns living at 1035 Aisquith Street borrowed envelopes from the Sisters of Notre Dame, 1033 Aisquith Street. U

It was determined at the Provincial Headquarters of the Sisters of Notre Dame de Namur, that [redacted] is not a member of this order nor is she known to have ever stayed at 1035 Aisquith Street. The School Sisters of Notre Dame, 1033 Aisquith Street, claimed not to be acquainted with [redacted] in this particular order. U

b6
b7C

Referenced WFO tel reflects that [redacted] is known to that office and was considered a Medburg Suspect by WFO. U

Bureau, Philadelphia and WFO are requested to advise Baltimore of any other available information indicating associates of [redacted] in Baltimore to assist Baltimore in conducting further logical investigation concerning occupants of 1035 Aisquith Street, the local convent of the School Sisters of Notre Dame de Namur. FBI File No. 52-94527
Lab. No. D-710414034 LC
D-710414035 LC

Specimens received 4/14/71

K2101 Envelope postmarked "PHILADELPHIA, PA 2A PM 31 MAR 1971," bearing typewritten address [redacted] Philadelphia, Pa. 19121," and copy of one-page typewritten letter dated 12/23/70, bearing handwritten message at bottom beginning "Here is a copy of your unpaid bill..." and attached copy of bill dated 8/10/70 U

b6
b7C

Specimen received 4/14/71

K2102 Copy of fifth page of typewritten document beginning "Philadelphia War Tax Resistance can help YOU..." U

Result of examination:

The typewriter impressions on K2102 are the same style of type as the typewriter impressions on copies of the press releases of the Citizens' Commission to Investigate the FBI, beginning "On the night of March 8, 1971..." previously submitted in this case. However, the questioned and known copies are not sufficiently legible for a detailed typewriter comparison to be made in an effort to determine whether the questioned and known typewriting was prepared on the same typewriter. U

It was determined that the typewriter impressions on K2101 were not prepared with the questioned typewriters used to prepare specimens previously submitted in this case. U

The copies of K2101 were not associated with the characteristic markings of questioned copies of Xerox Model 660 previously submitted. U

A review of PHfile 100-48677 (Quaker Action Group) reflects that serial 598 is a copy of an informant report, which was received by SA [redacted] on [redacted] Page 5 of this report was a typed page prepared by the Philadelphia War Tax Resistance Fund, 3810 Hamilton Avenue, Philadelphia, Pa. The typing appears to be similar to that contained on the initial letter received from the "Citizens' Commission to Investigate the FBI." U

Enclosed herewith, registered mail, is page 5 of serial 598, 100-48677. The Laboratory is requested to compare the typewriting on page 5 of serial 598, PHfile 100-48677, with the typewriting contained on the initial letter received from the "Citizens' Commission to Investigate the FBI" to determine if it could have been produced on the same typewriter. On the afternoon of 3/31/71, Bishop was telephonically contacted by Morton Mintz, a reporter for the "Washington Post." He said that the Harvard "Crimson," a college student newspaper, has published in full several documents allegedly taken in the above-captioned burglary, which have not previously been furnished to newspapers or made public. He stated that the names of the subjects of the documents published in the Harvard "Crimson" have been deleted. He advised that one of these is a communication from SAC, WFO to the Director dated 12/16/69, and relates to our investigation of an individual who apparently traveled to Russia [redacted]

(U) [redacted] Based on the document published by the Harvard "Crimson," Mintz asked the following questions:

- (1) Is it FBI policy to secure from the State Department the names of American citizens who travel to Russia and register with the U. S. Embassy there?
- (2) Is it FBI policy to investigate American citizens who travel to foreign countries, including Russia?
- (3) A statement is contained in the document somewhat to the effect that "the office covering the residence of subject" is to take a certain course of action. Mintz desired to know the meaning of the word "covering," intimating that he felt it might mean the installation of a telephone tap or electronic surveillance.
- (4) Does the Bureau decide which American citizens traveling to Russia are to be interviewed and which are not, and what is this decision based on?

In connection with the planned demonstration at the Justice Building on Good Friday, April 9, 1971, by a group known as the "Tribe of Ezekiel" and members of other organizations concerning the East Coast Conspiracy to Save Lives, it is noted that sources indicate attempts may be made to distribute copies of FBI documents stolen from the Resident Agency at Media, Pennsylvania, 3/8/71.

Under the circumstances, it would appear beneficial that we record in so far as possible the identity of those individuals participating in this action should it occur. Photographic coverage would enable us to identify possible suspects in the Media incident and also could be of value in any legal action which may be forthcoming in the future.

ACTION: If approved, WFO will be instructed to make arrangements to afford this demonstration appropriate discreet photographic coverage.

Re: MEDBURG

~~CONFIDENTIAL~~

ADDENDUM BY LEGAL COUNSEL

I have no qualms about the legality of this proposed discreet photographic surveillance because I think the group to be photographed has potential for violence and the photographing would also aid in solving the case of Theft of Government Property. U

There is here, however, a policy question concerning which I do have some doubt. It is precisely this type of photographic surveillance against which Senator Ervin and his "right of privacy" group have been thundering for weeks, to say nothing of some major newspapers and other spokesmen for that view. Although Mr. Rehnquist, Assistant Attorney General, Office of Legal Counsel, argued otherwise, Senator Ervin and those of his view stoutly maintain that a citizen has a right to peaceably demonstrate against the policies of his Government and to so demonstrate without any surveillance whatsoever by the Government - by the FBI, the Army or anyone else. Should this photographic surveillance be discovered, we can expect a tremendous outcry from Senator Ervin and all who represent his views. Whether we have enough to gain from this surveillance to justify taking the risk of raising the issue in that way is something on which I can only speculate, but I do suggest that whatever decision is made it should be made with an awareness of this critical issue. U

I concur.

On 4/5/71 SA Donald E. Stangel examined photocopies received from Chicago by Special Courier. One copy was headed "Packet #2: Documents 15-24," followed by the press release of the Citizens' Commission to Investigate the FBI. Also included were copies of nine serials apparently stolen in the burglary of the Media, Pennsylvania, Resident Agency. The copies of these serials had not been included in the serials previously received by various news media, Senator George McGovern and Representative Parren Mitchell.

The copies did not contain the characteristic markings of the Xerox Model 660 copier on specimens previously examined in this case. Some of the copies contained the 3M watermark which was also found on some copies previously submitted. No watermarks were found on the remaining copies. No indented writing of value was noted on any of the copies.

When the Laboratory examination is completed, the submitted documents will be forwarded to the Identification Division for latent fingerprint examination. Two of these copies have been forwarded to the Rochester, New York, Resident Agency for examination by Xerox Corporation.

NOTE: Furnishing two copies prior to latent fingerprint examination to the Rochester, New York, Resident Agency for examination by the Xerox Corporation was coordinated with SA Henry Schutz.

ACTION: For information.

Re: MEDBURG

Specimens received 4/7/71

Q144 Envelope postmarked "PHILADELPHIA, PA 1A PM 31 MAR 1971,"
bearing typewritten address [redacted]
[redacted] Springfield, Pa. U

b6
b7C

Q145 Accompanying copy of typewritten letter dated 3/31/71,
beginning "On March 8th, the Citizens Commission..." U

Result of examination:

The typewriting appearing on Q144 and Q145 most closely corresponds with the Laboratory standard for a Royal Elite Merit style of type. This style of type has been used on items previously received in this case, i.e., Q110 and Q111. U

The Q145 letter appears to be a Xerox copy, but this copy does not contain the characteristic markings of the questioned specimens previously associated with the Xerox Model 660. U

No watermarks or indented writings were observed in the examination of the Q145 letter. The Q144 envelope is a stamp embossed envelope available in U. S. Post Offices. This type envelope has been used previously. U

Specimens Q144 and Q145 have been photographed and will be returned separately. U

**BURGLARY OF RESIDENT AGENCY
MEDIA, PENNSYLVANIA
MARCH 8, 1971 (MEDBURG)**

During the night of Monday, March 8, 1971, individuals unknown gained entry to the FBI seven-man Resident Agency at Media, Pennsylvania. Scratch marks were noted on at least one of the door locks indicating an attempt was made to pick the lock mechanism; however, actual entry was made by forcing an outside door. Desk drawers and all file cabinets were opened. No entry was made to the safe-type cabinet. Training documents, directories, and approximately 900 FBI documents, including interview report forms, intraoffice memoranda, directives from the Bureau, SAC Letters, etc., were stolen. U

Copies of the stolen documents began surfacing during the weekend of March 20 - 21, 1971. Two Members of Congress, as well as various news media, most of them unfriendly, received a packet of 17 items each. Although the Attorney General made an announcement to the press requesting that good judgment be exercised in the handling of these documents, the news media afforded this situation considerable publicity. U

The second packet, copies of 10 stolen documents, did not surface until April 1 - 2, 1971, when, again, the news media received copies through the mail. During the intervening period numerous sources and informants whose identities had been disclosed in some of the items which were stolen received a typewritten letter from the Citizens Commission to Investigate the FBI threatening that their continued cooperation with the FBI would result in their identities being made public. U

While some of the news media have voluntarily turned over copies of the stolen documents received by them, others--notably the "Washington Post"--have not. The "Post," recipient of two packets of stolen documents, has neither officially advised us of this fact, having notified the Department, nor volunteered to make the copies available to us. We have not contacted the "Post" in this regard. Other newspapers, such as the "Evening Bulletin," Philadelphia, refused to furnish us with the original copies which, of course, would be evidence, but did voluntarily turn over copies of the documents received by them. U

Investigation has been intensified among New Left anti-Vietnam militant activists principally centered around the Philadelphia area. U
Numerous suspects, many of whom have close ties with the Berrigan case,

ENCLOSURE

52-94527-

968

have come under suspicion. Extensive investigation of these suspects, including 24-hour surveillance of the five or six principals, is continuing on an intensive basis. U

Insofar as physical evidence is concerned, two unidentified palm prints were located at the crime scene. Many Xerox copies of the stolen documents were found to bear peculiar marks which would enable us to identify the copier which had been used. An extensive survey is under way in the Philadelphia area in an attempt to locate the suspect machine. Investigation is being conducted in order to identify every possible latent fingerprint and palm print found on some of the documents which were forwarded the press and Members of Congress. However, most of these documents were not handled as evidence by the recipients. U

Departmental Attorney [redacted] has been appointed by Assistant Attorney General Mardian, Internal Security Division, as the Department's representative in this case. He is being kept advised of pertinent details. The Department indicated on April 6, 1971, its intent to proceed in the very near future with an investigative grand jury. U

This is a summary of current developments in the March 8, 1971, burglary of the Media, Pennsylvania, Resident Agency, Philadelphia Division, wherein a quantity of FBI documents were stolen.

PROPOSED MEDIA RESIDENT AGENCY (RA) BOMBING: Information was received from [redacted] on April 8, 1971, that he has received information from a source indicating a group of militants from Media are tentatively planning to bomb the FBI Resident Agency as well as the Delaware County Court House across the street. Tentative plans according to source who has furnished reliable information in past called for bombing during July, 1971.

[redacted] advised in order to obtain this information, it was necessary to give assurance to his source that identity would not be divulged.

This matter being closely followed with the Chief, Local authorities, Media, alerted Delaware County Court House has twenty-four hour guard. Internal Security Division has been advised.

PROPOSED DISTRIBUTION COPIES STOLEN FBI DOCUMENT, JUSTICE BUILDING, APRIL 9, 1971: A Washington Field Office source has reported that a group known as the "Tribe of Ezekiel" plans to distribute 100 copies of one of the stolen FBI documents during a demonstration scheduled at the Justice Building between 11:30 and 1:00 p.m., today. The source was unable to determine how the copy of the document was obtained; however, he indicated the document came from New York City. Copies have allegedly been made in Washington, D.C., for distribution at the demonstration. Internal Security Division has been advised.

As has previously been reported, the Department has indicated its intention to initiate an investigative grand jury at Philadelphia, Pennsylvania, into the case involving the burglary of our Resident Agency at Media, Pennsylvania, on the night of March 8, 1971, during which FBI documents were stolen. *U*

In this regard we have compiled memoranda on 39 individuals, all of whom may be suspects in this case and could be potential witnesses before such a grand jury. *U*

In addition, the Philadelphia Office has compiled a list of names and addresses of 50 lessees of Model 660 Xerox equipment which could have been utilized to reproduce many of surfaced copies of stolen FBI documents. These 50 lessees are those which would not normally be expected to be cooperative with the FBI such as Haverford College, Bryn Mawr College, University of Pennsylvania, Temple University, et cetera. As previously reported, the Department had indicated it was considering issuing forthwith subpoenas in each of the latter instances. *U*

Attached for inclusion in running damage assessment brief (pages numbered 187-194) are individual write-ups on six documents relating to work of Domestic Intelligence Division which Philadelphia Division recently identified as stolen from Media Resident Agency, 3/8/71.

Racial Matters

Only one document pertains to work in this area. This document, an informant contact sheet, identifies a valuable racial informant by name. It sets forth specific information she furnished about both criminal and racial matters. [redacted] the informant involved, has already been contacted by Citizens Commission to Investigate the FBI, which group has claimed credit for the burglary. This group has demanded she cease her association with the FBI.

New Left and Miscellaneous Matters

One document relates to investigations in this field. A Philadelphia communication dated 1965, instructs various field offices to alert sources to any possible communist-infiltration in the then-upcoming 50th anniversary banquet of the Women's International League for Peace and Freedom. It was noted Martin Luther King, Jr., would address this group. Security informant [redacted] was identified by symbol number only and it appears unlikely that his identity will be compromised based on contents of stolen document.

The second report into our investigation of the burglary of the Resident Agency at Media, Pennsylvania, during the night of March 8, 1971, has been received. The report of SA dated April 9, 1971, at Philadelphia, Pennsylvania has been reviewed and appears to be an accurate and comprehensive portrayal of our current investigation. U b6
b7C

The report reflects investigation conducted in the neighborhood of the Resident Agency in an effort to locate individuals who may have information of value. Interviews with locksmiths are shown it being noted subjects apparently attempted unsuccessfully to pick the locks of the Resident Agency before forcing entry. Detailed investigation dealing with nine primary suspects is incorporated in this report as well as the results of Laboratory examinations conducted thus far. U

The report sets forth a chronological list of instances where copies of stolen FBI documents are known to have been mailed or received by the news media, members of Congress, or other recipients. U

Re: MEDBURG

Lab. No.

Specimens received 4/14/71

Q2096 Copy of four-page typewritten Memo beginning "Here is the first of a series..."

K2097 Copies of [redacted] documents

K2098 Copies of [redacted] documents

K2099 Copies of documents [redacted]

K2100 Eight sheets of carbon paper bearing typewritten impressions

Result of examination:

The two yellow copies of a memorandum dated November 24, 1970, to [redacted] which are a part of K2099, are copies of IBM Selectric Scribe style of type which is the same style of type used in the preparation of Q128, Q129 and other specimens in this case. However, the copies of this memorandum are not sufficiently legible for a detailed typewriter comparison to determine whether one typewriter was used in the preparation of this material. It was determined that the remaining typewriter impressions on K2096 through K2100 were not prepared with the questioned typewriters used to prepare the specimens previously submitted in this case.

Due to the size of the paper used to obtain the copies, K2096 through K2099, it was not possible to determine whether these copies were or were not prepared on the questioned Xerox Model 660 copier.
